## **Seattle's Minimum Wage Ordinance went** into effect on April 1, 2015

#### Who is covered by Seattle's Minimum Wage?

All employees working within Seattle city limits regardless of employees' immigration status or location of their employer.

#### How do I calculate employer size?

Count the employer's total number of individual employees worldwide. For franchises, count all employees in the franchise network.

### When can medical benefits count towards minimum wage?

To pay the lower hourly rate, a small employer's payments must be for a silver-level or higher medical benefits plan as defined by the federal Affordable Care Act.

A small employer cannot pay the lower rate if the employee declines or is not eligible for medical benefits.

- \* Beginning in 2019, all large employers pay the same minimum wage regardless of payments toward an employee's medical benefits.
- \*\* A small employer may pay an employee a minimum of \$16.50/ hour so long as the employee makes at least \$2.19/hour in tips or the employer makes \$2.19/hour toward qualifying medical benefits plan (silver level equivalent or higher).

In 2025, small employers will no longer be able to count employee tips and/or payments toward an employee's medical benefit plan.

This chart only shows the rates through 2024. Note: The minimum wage increases annually based on the schedule outlined by the law and annual inflation. OLS will announce the increased minimum wage during the fall of each year.
